

# DESIGN SYSTEM

Voor mijn common challenge heb ik een design system gemaakt. Dat houdt in dat ik standaard elementen, zoals radio buttons, check boxes en een navigatie balk heb gemaakt, zodat iemand die een website wil maken hier niet tegen aan loopt.

Omdat Figma alleen toegankelijk is voor Figma gebruikers en niet breder dan dat heb ik mijn design system ook gecodeerd. Die staat gehost op Github. Op Figma zijn het enkel voorbeelden van hoe het er uit zou komen te zien. De gecodeerde variant zijn werkende elementen.

```
1 <!DOCTYPE html>
2 <html lang="en">
3 <head>
4   <meta charset="UTF-8">
5   <meta http-equiv="X-UA-Compatible" content="IE=edge">
6   <meta name="viewport" content="width=device-width, initial-scale=1.0">
7   <title>Design System</title>
8   <link rel="stylesheet" href="styles.css">
9 </head>
10 <body>
11 <h1>This is my Design system!</h1>
12 <p>Hi everyone, welcome to my design system! For a school project, I was asked to make a product that v
13   Let me explain what that means.</p>
14 <p>Commons are things that can be used by all members of a group or a society. In terms of design, ther
15   Figma has a community page which sounds pretty good, but there is one problem. You can only use it w
16   Figma does have an inspect page, but this code is not always as accurate as you want it to be.</p>
17 <p>That's why I decided to code the page myself. I wanted this design system to be much more complete,
18   to do, this is all I could manage to do in this short amount of time. </p>
19 <p>I have a few extra pages on the figma page, so if you are curious you can check it out! <a href="#">
20 <p>Even though it is a small design system, I still hope it will be usefull to somebody!</p>
21 <p>Thank you for looking at my design system, and I hope that you will have a great day. :)</p>
22 <button>
23   <a href="button.html">Design system</a>
24 </button>
```
